The various military camps and positions will confer a favor by keeping up posted as to movements and affairs in their vicinity.

The Intelligence notices the almost universal condemnation which has greeted the hapless "Order" of Gen. Hunter and says: "The fact is a most instructive one, however much we may regret, for his own credit, or for the probable effect in disloyal communities, that Gen. Hunter has allowed himself to be misled by military caprice beyond the bounds of discretion. We cannot but rejoice that he has afforded a new occasion for the reiterated expression of that popular will which has thus far sustained the National Government in the pursuit of the policy prescribed for it by the Constitution and the laws. They greatly mistake the American people who suppose that, even in a time like this, they can be seduced from the safe measure of the Constitution to launch on the shoreless sea of a military despotism. Politicians essaying to be Generals, as well as Generals essaying to be politicians, should not permit to be misled by the lesser evil of a military despotism to be brought for the edification of all concerned."

The Republican is in the dumps because of the President's Proclamation; says that the opinion of the President "although from a very high source, is only an opinion, and cannot affect rights (if any) which have accrued to anybody under Gen. Hunter's order," and further argues that it is "the duty of the President to preserve the laws, under the war power, which he possesses."

OUR MILITARY BUDGET.
FURLOUGHED.
Through the exertions of General Sickles, the members of his Excelsior Brigade, (who so distinguished themselves in the battle of Williamsburg,) who are now here as parole prisoners of war, have been furloughed and provided with transportation to New York; to report to the commanding officer of that post in a month, by which time it is presumed that arrangements will have been consummated for their exchange. They will probably reach New York very shortly.

CAPTURED.
The gunboat Ottawa captured off Charleston, on the 18th, the schooner Gen. C. C. Pinckney, loaded with cotton. She was attempting to run the blockade, and was bound for Nassau.

GENERAL SICKLES.
Genl. Sickles left this city today to resume the command of his Excelsior Brigade, on the Peninsula.

The New York Free Press (Ellsworth's) regiment were landed at Governor's Island on Monday, from Newport News, and will remain there until the proper rolls can be prepared, and the regiment disbanded. Including released prisoners, they number six hundred men, and there is nothing in their appearance to mark them as men who could no longer be retained in the service. The cause of the disbandment connected with the death of Ellsworth, was continued with the disorganization that followed the battle of New Market, and culminated in recent events at Newport News, the Quartermaster complaining of their treatment, and refusing to remain in the service as hospital nurses and grave diggers.

The Harrisburg Patriot announces the death on Sunday last, of Gen. Keim, at the Brady House in that city. Mr. Keim was Major General of Pennsylvania volunteers during the three months campaign, and served in Gen. Patterson's column. Last fall he was appointed Brigadier General of Volunteers, and resigned his position as Surgeon General of Pennsylvania. He commanded a brigade at the taking of Yorktown. His disease was typhoid fever and dysentery, contracted in camp.

New Books.—From Philip & Solomon, 332 Pennsylvania avenue, we have "Artemus Ward, His Book," published by Carleton, N. Y.

The floating miscellanies of the humorous American writer, Mr. C. F. Browne, (already a first favorite with the reading public under his pseudonym of "Artemus Ward,") have been collected in this handsome volume, and afford most laugh-provoking reading.

From Franck Taylor we have Part XVI of Franck Taylor's excellent "Rebellion Record."

The U. S. military telegraph line has an office open and working in a saw-mill at the 14th mile post from Richmond. The line to the various camps and stations between headquarters and Fort Monroe are in good condition and working admirably under the personal supervision of Mr. Thomas T. Eckert.

OFFICERS' ATTENTION!
We have received from the publishers, Field & Love, of Pittsburgh, Pa., the National Bank Note and Commercial Reporter for May 15, containing a full list of all the latest counterfeiters and the names of all the solvent and insolvent banks of the country.

PERSONAL.—Brig. General J. C. Sullivan, U. S. A.; Maj. Cameron and Capt. H. Erickson, are at Willard's.

Com. Haggerty, U. S. N.; Surgeon J. B. Porter, U. S. A.; Wm. H. Nobles, Port Royal, S. C., are at Kirkwood's.

Mr. John Swann, of Baltimore, and a young man named Maury, were released from Fort Mifflin yesterday.

There were 38 deaths in Baltimore last week, 11 males and 27 females.

ON THE WAY TO RICHMOND.
Advances of McClellan's Army.—Scenes and incidents on the march.

Twenty miles from Richmond, May 17.—My quarters last night were with General Stoneman, Chief of Cavalry, at Prospect Hill, near the point where the railroad crosses Black Creek, and about six miles from the crossing of the Pamunkey river. General Stoneman has occupied the advance position since the departure from Yorktown. The country from this place to the Chickahominy has been cleared of the rebels, and in fact our pursuit they have burned the bridge and retired to parts unknown.

Yesterday General Stoneman, accompanied by some companies of cavalry, made a reconnaissance southward the river at a point between the railroad line and nearly to Bottom's Bridge, finding the enemy's guns in position and some infantry to support them. He afterward proceeded in force to take the battery, but the enemy hastily retreated after throwing a few shells.

During yesterday a little affair happened which was a stigma upon the character of an officer not known to me, and in the interior, through the entire peninsula, the land was a desolate and unprofitable aspect. Ten miles below, near the Chickahominy, I saw a few negro soldiers, containing a population of about three hundred persons. The only rebels seen in this vicinity yesterday were struggling soldiers, deserters and others to the number of about a hundred, who had hidden and were awaiting the approach of our army.

Bottom's Bridge is fifteen miles from New Kent and the same distance from Richmond. The bridge has been destroyed, together with one below and two above that point. The stream country has been cleared of the rebels, and the country is low and swampy, both below and above, and offers a good place for defence.

LATE NEWS BY TELEGRAPH.

LATE FROM SANTA FE.

The Rebels on the Retreat from New Mexico.
[Per Telegraph to The Star.]

KANSAS CITY, May 19.—Advices from Santa Fe sent to the 31st inst. give the following:
Our troops are still at Fort Craig, under command of Col. Paul, and were placed on less than half rations, owing to the scarcity of provisions. Gen. Canby is at Santa Fe. The Texans had met a body of 500 of their at Adobe Hall, but continued to retreat. One hundred and twenty prisoners (Texans) were passed on the road to Fort Larned.

Late from the Army of the Potomac.

Particulars of the Advance towards Richmond.
WHITE HOUSE, Va., May 17.—The army commenced moving at an early hour this morning in the direction of Richmond, and will occupy some miles from this place.

The advance under Gen. Stoneman reached the railroad bridge at the Chickahominy river yesterday. It is a long trestle bridge, two spans only of which are burned. It can be rebuilt in a very short time. The enemy's pickets are guarding the whole line of the river in front of Richmond, making it very difficult to obtain any reliable information from that city.

Gen. McClellan went on a reconnaissance today to the Chickahominy.

The programme of operations in front of Richmond will soon be decided upon.

FROM BACKS' COMMAND.

STRASBURG, May 19.—It is currently reported and credited in military circles that 2,900 rebel cavalry, after being ordered to disband, have been reformed and formed into guerrilla bands, occupying the various mountain ranges and fastnesses. Gen. Geary, a few days since, learned that one of these bands were quartered in a cave a few miles from Rectortown, and made arrangements to surround and capture them.

On reaching the cave he ascertained that they had vacated the previous day. Forty men and horses had evidently been concealed for some time, and had lived in a sumptuous manner, judging from the empty bottles, cans, etc. It is probable that they were a portion of the force which captured Gen. Warren near Linden, and retreated towards Warrenton on Shields' approach.

Gen. Geary has been ordered to report to Gen. Banks in future. He has been relieved from guarding the lower portion of the Manassas road, which duty he has been performing for some weeks to the extent of fifty miles.

The Blue Ridge and adjacent ranges and spurs are infested with guerrilla bands, who watch every opportunity to shoot and capture our pickets and train guards. Their familiarity with the mountain defiles and gorges enables them to elude pursuit.

FINANCIAL.—New York papers of yesterday say: "The stock market opened with much firmness and a decided improvement in some particulars, but a large portion of the list was quiet and the market dropped in the afternoon. FURTHER CONCERNING THE FIGHT ON JAMES RIVER.

In the Philadelphia Press and Inquirer we find the following accounts of the fight at Fort Darling. They seem to conflict with previous accounts, and with each other, but we give them for what they are worth.

The Press says:
Fortress Monroe, May 19.—p. m.—The Stevens battery, known as the Naugatuck, has just arrived here from the scene of action in front of Richmond, and I have some interesting details of the important operations of Commodore Rodgers' fleet in the upper waters of the James river.

It seems that our iron-clad sloop-of-war Galena proceeded up the river, leading the fleet, and silencing the many minor batteries that lined the shore, until the fleet had arrived at a point in the James river about eight miles below Richmond, where the e is a bluff, upon which a series of strong batteries have been constructed up to the city.

These batteries were found to be mounted with superior rifled guns of very heavy caliber. The Galena was moored in close to these shore batteries yesterday morning, and opened a terrific fire upon them, the Monitor, Naugatuck, and other vessels of the fleet.

At first the shot of the rebel guns rolled off the sides of the Galena, making only dents in her mail, but gradually, after five hours' fighting, it became apparent that the rebel batteries were being pierced by her. Thirty shots struck her and lodged, whilst two went entirely through her, tumbling out on the other side.

A shell burst in the Galena during the engagement, but the crew, the reason being that the crew and wounded men were being shot.

The Naugatuck was ably handled by Captain Constant, but, after firing seven magnificent shots, she was forced to retire, and the Monitor, Naugatuck, and other vessels of the fleet.
